SENSELESS SURRENDER

Editor, News-Press — 2/12/67

The deliberate deceit of the Great Society of despicable. Now it goes all out for a consular treaty, at first claiming that 15 more indoctrinated subversives (like a little pregnancy) can't hurt us, and now hiking the ante to "30 more can't be very dangerous". In his eagerness to excel FDR, HST and JFK in surrendering free men's heritage LBJ now urges giving away another enormous slice. The truth is not in him.

You heard recent releases claiming 622 aircraft lost in Vietnam when correct tally shows 1,172 or 560 more making for 90 per cent White House falsification. Far worse glaring misrepresentation admits only 1/5th less than actual 8,800 deaths in combat. The king can do no wrong his public is gullible peasantry, so this pernicious treaty is to be inflicted by wholesome arm-twisting.

What J. Ed Hoover has for over two years loyally warned against is first ignored and then distorted by twisting his facts to sound like endorsements. Our already overworked FBI is to be swamped by admitting 30 (not 15) cells cloaked with immunity. Trust the Warren Court to soon let down the bars by

divine interpretation for a spy nest in each of 50 states. The first 30 (not 15) is just the stupid foot in the door.

What we stand to gain is a mirage. The carrot at the donkey's nose is civilized treatment for 18,000 U. S. tourists, most of whom have Marxist leanings, going for "I was there" data to bolster leftist conduct and dissent. Russia should be off limits to all idle travel. The only visible commercial gain is some raw materials and furs, since Soviet products are notoriously snoddy and far behind other lands. Where now is Big Labor's voice on importing goods made in a slave state? As the main Democrat purse this is the moment to chant its claim as mouthpiece for U.S. workers.

The vaunted treaty can only swell subsidies for wage protection and hasten rising inflation already aggravated by LBJ's lavish concessions to unions, besides his gorge of welfare for all mendicants who can vote.

Perhaps some Democrat (wiser than most) can cite a single case of the USSR having ever respected a treaty. They out-smarted the best Democrat brains at Yalta, Potsdam and Cuba. Only when voters rally to prevent this debacle can yet another senseless surrender be blocked. Act quickly or like what you get by neglect of patriotic duty.
