Social Security News

In a statement made recently Mr. Leonard J. Dziadkiewicz, manager of the Social Security District Office in Olean, N. Y., reminded those who are approaching age 65 that some action may be necessary on their part in order to have the protection of Medicare at the time they reach 65.

Medicare coverage is available to nearly everyone age 65 or over, even if they are still working full time. However, an application is necessary if one has never been made. The enrollment period for signing up for the doctor bill insurance part of Medicare is a 7-month period beginning 3 months before the month of reaching age 65, and continuing for 3 months after the month in which age 65 was reached. Mr. Dziadkiewicz stressed that this doctor bill insurance coverage can begin with the month of reaching age 65 only if the application for it is made in one of the 3 months before the month of the 65th birthday.

"Making an application in the month you reach 65, or in one of the 3 later months, means a delay in when the coverage becomes effective."

The average number of unwanted fires in American homes each year is 550 thousand. They cause 6,300 deaths, 250 thousand other injuries, and \$329 million property damage.

How America's red-white-and-blue collar workers help keep America strong.

In May 1941, top representatives of America's labor unions met with Henry Morgenthau, Jr., Secretary of the Treasury, and pledged their support of the Payroll Savings Plan for U.S. Savings Bonds.

Today, organized labor still endorses and actively supports the program. And the Payroll Savings Plan, just an experiment in 1941, now proudly boasts 8 million members, mostly union people, sharing a personal interest in their future and their country's.

With the Payroll Savings Plan, saving for the future is downright easy—and painless. How can you spend money you don't even see?

When you sign up, a small part of your money is tucked away every payday. Automatically. And starts earning you the new, higher interest of 4.15% on every Bond you buy and hold to maturity.

Bonds grow quickly. So when you need the money for important, personal things, the money is right there—ready to help pay for them.

Important things like a new home, education, that dream vacation—or your retirement.

Most important, Bonds are helping support our men in Vietnam.

Buy Bonds on the Payroll Savings Plan where you work and you'll find yourself in pretty good company. And dollars ahead.
