## News That's Print To Fit

Well folks, just in case y'all thought that we had been "muzzied", had writer's cramp, or something worse, we want to re-assure you that we are still here and haven't forgotten you interested people.

Last week we had several pictures that "just had to go" or they would have been rather antiquated — and then too — we had promised that they would be in the paper, and so they were.

Thus this column just didn't — "fit"!

Now, this week, after last night's chain of events — and resulting pictures — it appears as if things are apt to be cut pretty short again.

In fact, after attending the dinner banquet at Alfred as a guest of one of our local Town Board Members and hearing the interesting talk on the new proposed Southern Tier Expressway — we just had time to make it to the Andover-Grange to get the pictures of the Regional Prince and Princess — at the appointed time.

Then, we had no sooner finished our "snak" as guests of the Grange when the fire whistle blew — and we were off again to the Raub fire at Elm Valley. By the time that we arrived at the scene of the fire after following the Andover Fire Department Tanker grind slowly up the steep hill — it really started to "snow" up on top of the "knob", and despite the weather conditions, snapped a couple of pictures.

Thus, by the time that we got home, developed the pictures, and were ready to "hit the hay" the night was pretty dogged short!

"Sorry about that" but that is the way the Newspaper Ball bounces — or so they say!

Boy, winter sure hates to give up doesn't it? Thru the courtesy of the "Boys down at the Pump Station", here are the recorded Low and High temperatures since last Friday: 21st L. 30, H. 62; 22nd L. 50, H. 65; 23rd L. 30, H. 36; 24th L. 26, H. 36; 25th L. 21, H. 44; 26th L. 16, H. 52; and today's L. 31 and present reading 48.

Then too, we can't forget that 4 inches of snow that was waiting for us when we got up Monday morning — and well, the roads ever slippery! But, someone once said: "better days are coming bye and-bye"!

What with the confusion of all the late news coming in as well as a rash of pictures, we almost forgot to mention that an old friend of ours has been recently reported as having been wounded in Viet-Nam.

According to word received in this area, Captain David Decker, who came into Company K as a private back when we were a Company Grade Officer, who then attended OCS and later took over as Company Commander, went into active duty in the Army several years ago and has been serving in Viet-Nam as Company Commander for quite some time now — received chest, leg and arm wounds and is presently hospitalized.

Captain Decker, as many local people should be able to remember, brought over Armored Personnel Carriers for several of our local Parades — and even brought over a couple of M-41, light tanks. In fact, as we remember, Doug Var even had the privilege of riding as Tank Commander in the APC Captain Dave drove in one parade.

From all of his friends in this area — we wish Dave a quick recovery, and hope that he is able to return to the States for a much needed rest.

Oh yes, we almost forgot, on the way back from the fire last night we stopped off at the Fire Hall to find out what Fire Department was on the way to the fire as we were coming back — but with no Comm. Officer at the Radio — were unable to find out. Maybe one from Wellsville? ? ?

Lewis W. Hallenbeck, Asst. District Engineer, District 9, Hornell, points out the proposed interchange at Almond for the new Southern Tier Expressway.

Engineer Hallenbeck spoke last night at the Allegany County Agricultural Professional Men's Association dinner held at the new Ag-Tech Cafeteria in Alfred, N. Y.
