

Proclamation By The Governor

October has been proclaimed as "Parent Teacher Membership Month" by Governor Rockefeller in support of the recruitment drive of an organization which he said "represents a vital link between the administration of our public schools and the general populace."

Referring to the New York State Congress of Parents and Teachers as "a training ground for local leadership," the Governor said "it provides an excellent forum for the expression of the aspirations and plans of the people for their schools."

"Membership in the PTA," he declared, "carries with it an opportunity for the individual to channel his creativity into a strong and orderly stream."

"As Governor of a State which

maintains an educational program of the highest standard, I recognize and appreciate the assistance of PTA in the encouragement of public support for this program."

Car Plate Renewals Mailed

The owners of approximately a million motor vehicles, mostly passenger cars, are due to renew the registrations on their cars at the end of October. Their renewal applications will be mailed from Albany during the last two weeks of September. The applications may be taken or mailed to the nearest motor vehicle issuing office with the renewal stub and the fee that is designated on the application. It will be returned within a few days with a new sticker that is to be placed on the rear of the present plates.

LIVING UNDER LAW

CHECK THOSE CANCELED CHECKS

For several months, Tom's checking account has been coming up a little short. Not much, but enough to start Tom looking back through his canceled checks to see where he had made the error. Tom made a startling discovery: someone had been writing checks in small amounts over his forged signature. He called the bank immediately.

"Your bank has been letting forged checks go through. I want my account reimbursed," Tom demanded.

The bank checked into the situation and found that there were at least 10 checks forged over a period of six months—all from Tom's account.

"Sorry, but we can't do anything about reimbursing your account," the bank said. "You let those bad checks pass without telling us. It is up to you to find the forger. Some of these are six months old. So far as our personnel is

concerned these forgeries were your actual signature at the time. You didn't tell us otherwise."

"I'll sue," Tom said. Does Tom have a chance of recovery?

In this case, probably not. Tom had been negligent in not making a full recheck of his bank statement every month. When the money started disappearing from his account, he should have notified the bank immediately. Had he identified the forgeries at the start, he might have recovered the loss. But at this stage of the game—with 10 forgeries in his files—he is probably out of luck and about \$50.

The bank has the duty to stop obvious forgeries or questionable checks, but the account holder—in this case Tom—must finally discover the forgery by checking the canceled checks and balancing his personal books.

If you have a checking account, be certain you look at each check—the amount, to whom it was paid and the signature—to make certain it tallies with your records.
