The experts say
OCTOBER
is an ideal time to
fertilize your lawn

Even though grass is inactive, ground root development can go on all through the winter months, ensuring a sturdier and earlier spring green-up and thicker turf. And if you use Turf Builder there will be no loss of feeding power, no matter how low the temperature goes. The patented Trionized bonding prevents leaching or nutritional breakdown.

Extra Protection

Some winters, under high moisture conditions, disease-developing fungi can cause trouble. As a safeguard you can use Turf Builder-plus-1 which includes fungicide along with the fertilizer. 5,000 sq ft bag 6.95
