Larry Ryckman uses a small nand Fire Extinguisher on an oil fire in a demonstration put on at the Andover Central School Grounds by the Andover Fire Department last week during Fire Prevention Week. "Jim" Jackson carries out the "Fire Prevention Theme" as a "standby" with a la portable fire extinguisher in east the small one is not sufficient to completel put out the fire

Firemen Give Demonstration On Fire Prevention

Members from the Andover Fire Department joined other Fire De-Departments across the county in commemorating "National Fire Prevention Week" by putting on a program for Andover (Central School Students on the school grounds last Wednesday after noon.

Fire Department members put on two derionstrations, one for members of the fourth grade, incanother one for students from the first them. St. grades which in our elismosping the students the new Fire. Trucks and equipment, explaining the dse, and then putting on a demonstration.

On a demonstration

During the demonstration the inference between water streams from a five hose in fighting different types of tires was shown and explained. It was pointed out that straight streams using high pressure and volume vere usually usen in "general type" fires, while a "for pattern" is used in oil type or electrical type fires. This adjustment change can be made eye a "flick of the wrist" with the new type hose nozzle that is a part of the moutern-type fire fighting equipment.

part of the modern-type fire fighting equipment

Different types of the cating dishers were shown, explained, and their proper use demonstrated in putting out an oil-type fire. Due to the windy weather, a general-type fire demonstration was unable to be presented because of possible danger involved.

The program was constituted to

The program was concluded by having one of the students put out an oil-type fire with a portable fire extinguisher and then emphasizing the importance of cailing the Fire Department immediately when a fire is discovered instead of wasting valuable time trying to extinguish it alone.

In the Fire-Prevention Poster

In the Fire-Prevention Poster Contest which was conducted under the supervision of Fireman Carlyle Carmody at ACS during fire prevention week. October 8 14, the following winners have been announced: Diane Lean ansusan Church each won the 1st prize of \$3 in their class; David Gillagher won the 2nd prize of \$2; and Shirley Lewis, and Doug Petric each won the \$1 third prize in their division. In the Fire-Prevention Poster

Judges of the contest were: Miss Betty Davies, Miss Mary Agnes Sullivan and John Frascella.

John D. Ordiway

News That's Print To Fit

Say now — know what? This weather has us so confused that we are maxing one misteak after another. And, if you don't believe it — just ask the "little woman." Yep, real nice spring and surmer weather for a few 'days — until the plants are even coeffused—and then all hall brakes foosel Well, snow anyway.

Mary and Jim were telling to only yesteroly about the benatiful Laster Lifty that they had in full

the beath of the beath of the blossom on "Hardy Hill, and our action table is adorned with a neautiful red rose that came from our larety and. So, maybe that was just "sugar snow" last night and nearning -- up in them that

Seo kidding! Someone brought a snow-ball into the News Office last night — but by the time that "Editor-Feller" got thru printing the pictures of the Firemen's Demonstration last week — the snow-ball refused to "pose" in it's natural state — and up and ran away!

away!
Speaking of snow balls reminor is that we actually made one thismorning and were going to throw it at "Jack" who was standing infront of the Post Office only blackly to us, we remembered that there rew Ordynance against it, so had to gently place it on Ray's front fawn:

As far a cl. picture printing open as concerted the results were more than a dick by cloudy? You might go s far as to say that they were "downight MVDD'2 ! "Yes sir! After going to all the trouble of printing up those mee pictures for a scap book, where we got to wash ther in that there nice pure "spring mater" like the skyr says "— we had to it a "search warrant" to Stater like the sign says — we had to ret a "search warrant" to even find them in the muddy call v de, the of the wath water? Yep, we even say done for producing is in one earlier — the pidding is in one earlier — the licture of the normal is to the picture of the proof, is in the repeating.
