Council Of Churches Announce Stand On Proposed Constitution

We deplore the fact that recent political advertisements in support of the proposed Constitution have fallaciously asserted that the present State Constitution prevents parochial school children from receiving speech therapy, psychological guidance and driver training. The sponsors of these advertisements are either guilty of a lack of knowledge of what the present Constitution and existing State law provides or they are guilty of deliberately attempting to mislead and deceive the public.

We urge the voters of the State of New York to vote NO on the proposed Constitution — to vote NO on Question 1.
