New That's Print To Fit

Say folks, hasn't this beautiful weather been almost too good to be true? Two different days the mercury hit the 80 mark in the shade on our back porch, and there has only been a couple of days that you really needed a jacket. Of course it has frozen almost every night — but at this time of the year, that's to be expected. Let's hope it stays this nice and warm — but — don't get your hopes too high — it might still show us what snow looks like yet!

Speaking of snow reminds us that we received a bulletin from the State Police that should be of interest to all of you motorists that still have your winter-studded tires on your car.

Here it is for your information — and action: "If your car is equipped with studded tires, they should be removed by May 1 and not returned to the vehicle before October 15th.

Superintendent William E. Kirwan has advised all State Police installations that the use of studded tires between these dates is an infraction and that enforcement action may be taken when violations are observed. Ordinary snow tires without metal studs may be used at any time.

The limitation on the use of studded tires was incorporated in regulations issued in 1965 by the former Department of Public Works, now the Department of Transportation, which authorized the use of these tires on state highways during the period when snow might create hazardous driving conditions.

The State Police has been asked by Commissioner J. Burch McMoran of the Department of Transportation to enforce the regulation as a result of a survey by department engineers which indicated that studded tires observed during the summer on passenger cars and delivery trucks had caused pavement deterioration in the Buffalo area.

There it is folks — a word to the wise should be sufficient!

Say Folks — or should I say ALL LOCAL MOTORISTS! Don't forget to make sure that your cars are NOT PARKED along or on the Village Streets on Monday — ALL DAY! The Village Street Department is planning on sweeping all of the Village Streets — and your co-operation is needed!

For you people that were on "Medicaid" and have recently been told that you are not eligible now, here is an opinion by Attorney General Louis J. Lefkowitz dated April 8, 1968: "The Attorney General issued a formal opinion to the State Commissioner of Social Services, holding that medical assistance commenced prior to April 1, 1968, should be continued and paid for at all levels as to persons covered before that date. The Attorney General said questions about authorization and treatment should be determined by the local social services official with the advice of a physician as provided by the Social Services Law."

In the April Better Business Bureau Bulletin it states: "Men, women, and teenagers who attended a trade show recently participated in a drawing which offered as a prize, a free stereo. Shortly after, the Bureau began receiving calls from 'consolation prize winners' who questioned the offer.

The Bureau determined that the 'winner' was required to invest almost \$250 in a specific number of limited-choice phonograph records to claim the prize! NOTHING IS FREE — the price of the records covers the cost of both stereo and records, and allows a profit for the promoter.

The 'drawing' gimmick has been used successfully at trade show county fairs and other public gatherings. Mrs. Gueino and family are spending a few days with her parents.

Dear Jean and Red,
Enclosed a few bucks to keep the 'Andover News' coming over the Rockies. I was saddened to learn of your father's passing. He was one of the leading chauffeurs for the Chestnut Street bus some thirty - forty years ago.

I would like again, at this time, to make my address available to the people in the Andover Area, so when they come to L. A., my place can be their headquarters as my guest. I live in the Westlake Area which is five minutes from Civic Center.

I was both pleased and surprised of the goodly number that did stop — in fact one young Army Lt. and his wife planned for an overnight visit but stayed for a week along with their mother dog and her eight pups.

Best regards,
Dr. James P. Lynch

In gatherings to provide a snicker list of consolation prize winners who are mesmerized with the thought of being a winner, at last!

In a bona fide drawing, a true winner is not required to pay any money to claim the prize.
