After a tornado struck the eastern side of the county, the Company began to answer calls outside the Village and also to Wellsville as they helped fight the Pearl Street and High School fires there.

The Company then purchased their own home and rebuilt it to their needs financed by donations and funds raised by dances and entertainments.

In 1930 a need for a second pumper was filled by the formation of a fire district of the township outside of the village. A contract was drawn up to furnish fire protection to the rural parts of the town and a G. M. C. La France pumper equipped with a booster tank and Foamite Generator was purchased. When the truck was delivered, a space that had been pointed out by the man doing the lettering and trim as being bare, was filled with the motto: "Deeds Not Words" — and this has meant much to the members of the Department since that time.

In the early months of 1941, the small pumper of 1920 was replaced by a new and larger truck carrying a larger booster tank enabling the firemen to carry more water for fires to the surrounding farms.

Since that time, a Dodge pumper was added and then replaced by a larger International as well as a 1,500 gallon tanker and a hook and ladder truck.
