News That's Print To Fit

Well folks another week has rolled around again — and Old Man Winter is still really with us.

Man Winter is still really with us. A little more snow — and plenty of field atr?

Then the courtery of the Boyd down at the Faine Station bare and heater the Station bare the St

just it case the newsprint may appear a little fluxty or the type may seem a little frosty. It because we have been working under rather attended in the circumstances at the "News Office"

veries circumstaness at the "News Office."

Kep, we have been torn apart down here for the last three weeks, trying to get a new "press room" put together so we have a place on the ground level to put the press in that we obtained from the "Wellsville Reporter" this past summer when they installed their new offset equipment for their job shop and newspaper.

Partitions had to be torn out — lops of dust, old flooring had to be torn up — more dust, nearly 20 ton of crushed stone dumped in — another big batch of dust, and today — around six inches of mixed cement poured in for the new floor, so lots of cold air and frost!

Perhaps we should borrow a phresse that different State Highway Departments use when they have reads under construction that

phrase that unevertex use when they have reads under construction that goes like this: "inconvenience - Temporary" — "Improvement - Permanent"!

However, when we look around us at what still have to be done—it makes us wonden; "whether it's really worth it or inet"! Do you all ever experience feelings like that any rate, its for sure it should improve the looks of The Andover News by printing it with a press that isn't at least 100 years old that was installed 2nd hand in our cellar around 50 years ago. Then too, it will be a lot more convenient to have everything on the same floor—besides thing on the same floor thing on the same Hoor— peaces who knows— it might even speed things up a lot more so that our "deadlines" won't be quite dead by the time that the paper is "put to bed"! Suppose? ??

Since we have opened "Pandora's Box" this week and commented on our own affairs, seems like we might as well include some other things that are "pur-

some either things that are "purley local"!
First, we noticed that "Matt"
Dillien's trusty steed "creep-along" (gotta be that-a-way since
it's a small fod) has developed
problems with it's "get-a-long".
In fact, as far as we can see, it's
been resting on its haunches for
several days now waiting for a
"new gear transplast". Suppose
a shot from a tranquiliser gun
between its head-lights would put
it out of suffering until the operation is over with!

Then we also noticed that someone else in 'bis is "sporting a new look" — and what a "tall tale we were told on that one"! 1.! Why it would have been a little too much for even a 3-year-old to believe. However, we will want a while snd see if something more state is larged as an "Official Name Release". 10-4?

We also heard about the "purr-compared to a heavy bull when the finish bring tables "re-termed" in he medodene diggings after complete much anxiety in Mg ownbe "check-svi" he reaction

Richard Appier

Richard Appier

WORKED UP A LATHER

A couple of farmers in Iowa were discussing a severe drought. One had some wheat which he had man-

aged to harvest.
"The drought sure has made the wheat crop short this year."
"Short: Say, I had to lather mine to mow it!"

A three-ounce serving of cooked smoked ham with lean and fat furnishes 290 calories.
