New Estimated Tax System For 1969

Completely new estimated tax forms for reporting and paying estimated tax for 1969 were mailed about February 1, John E. Foley, District Director, Internal Revenue Service, Buffalo, has announced.

A taxpayer should not assume that he is required to file or pay estimated tax simply because he receives the new package, Mr. Foley said. Anyone receiving the new forms package should read the instructions very carefully to determine whether he is required to file an estimate.

No declaration is required, in any event, if the estimated tax not subject to withholding can reasonably be expected to be less than \$40.

Many taxpayers, Mr. Foley said, choose to avoid filing declarations and making quarterly payments by increasing the amount withheld from their wages.

He said that the distribution of estimated tax forms is being made somewhat later than usual because of the introduction of some new features designed to reduce problems in crediting payments to estimated tax accounts. The new forms and instructions, which were previously a part of the income tax pamphlets, will be mailed separately this year.

The new package will include the necessary forms, instructions and four payment "vouchers" and pre-addressed return envelopes. The new package will be sent to all taxpayers whose prior year records indicate that they may be liable for filing an estimated tax declaration in 1969.

Mr. Foley said the form and payment voucher will be imprinted with the taxpayer's name, address and social security number exactly as they appear on the Internal Revenue Master File. The imprinted forms will provide assurance that the taxpayer is properly identified and that his payments are credited to the correct account. Limited supplies of the new form and instructions will be available at IRS offices for those who do not receive them through the mail.

The Kent farm tenant house on Pingrey Hill after firemen from Andover and Wellsville had the fire pretty well contained. Firemen were still on the roof and standing in the windows pouring streams of water on stubborn spots of resistance. The sun can be seen shining through the porch roof that was badly damaged by the fire. Photo by Wittie
