Editorial

Loyalty Day is coming up soon and the question being asked is, 'Are you loyal to your country?'

Loyalty comes in many shapes and sizes, the form being determined by each individual person.

To some, loyalty to America would be a waving flag in front of their house on Memorial Day and the Fourth of July. Unfortunately, too many Americans are willing to let others run the country. These people could be called passive Americans. They do as little as possible towards the well-being of our nation.

On the other hand, there is a minority of people who are active Americans. They are the doers, the ones who are really concerned about the future of the United States. This group includes politicians, certain students, and everyday people. You don't have to be President to be loyal and show it. Little things that aren't really so little can give you a chance to show your loyalty. Voting and keeping informed are only two of them.

If you are only a passive American, become an active one! The future of your country is at stake and only you can determine the outcome.

FHA News

by Cindy Preston

Six FHA members from Andover Central School accompanied by Miss Goodrich, attended the FHA State Convention held at Grossinger's April 20 - 22.

The girls, consisting of four Freshmen - Charlene McCormick, Sheila Briggs, Karen Davis and Maureen Shellman; and two Juniors - Debbie Baker and Cindy Preston had a wonderful time. Grossinger's, a lovely resort spot in the Catskill Mountains offered a beautiful climate and beautiful scenery and provided a different atmosphere for our small-town girls.

An outstanding feature of Grossinger's was its different types of food. Often times, the girls had to take a chance on their orders and hope for the best.

Also, at Grossinger's, the Andover girls enjoyed the luxury of red carpets, an indoor swimming pool, and an elevator. The bell-boys were courteous, as were the waiters and fellow FHA er's.

Our girls had a wonderful, enriching experience which was very different from any they had known before.

You get a little over \$4.00 for every \$3.00 you invest.

And that's nothing to sneeze at.

Some people have misconceptions about Savings Bonds.

They think they're a nice little investment but they don't really give much in the way of returns.

Look at it this way. U.S. Savings Bonds now pay 4 1/2% interest when held to maturity - a little over \$4.00 back for every \$3.00 you invest, in just seven years.

On top of that, the interest is exempt from state or local income tax, and Federal tax may be deferred until

you cash the Bonds. That means a real difference in what you actually get when you invest.

Also, buying Series E Bonds lets you purchase them in small \$10.00 bills in denominations of \$20 and they pay 5% when held to maturity of four and one-half years.

Any way you look at it, Savings Bonds are a good investment.

And you know something?

They always will be.
