Sometimes we have to say no

Occasionally a customer asks us for some medication he's read about. And we must refuse him. The reason is that the particular medicine must be taken under a physician's supervision, and is available only on prescription. This is a safeguard to your health. As your pharmacist, we suggest you see a physician if you feel you need potent medication. We'll be happy to fill his prescription. Till then, perhaps our greatest service is saying "No."
