

Veterans' Day Speaker Stresses "Law and Order"

James H. Kessler, Supervising Principal of Andover Central School, speaker at Veterans' Day Services held at the American Legion Park in Andover, stressed the need for "Law and Order" in his inspiring speech directed at the young people in the audience.

The text of his speech was so inspiring to the Veterans and their families present at the ceremonies that we are presenting it here for the benefit of every true American — Quote:

"In beginning a talk to the people of Andover on Veterans' Day, on viewing the type of individuals that are here, I believe I will direct my remarks to the young people who are standing in front of me, rather than to the ones that are behind me. The Veterans and their wives who are behind me have made their contribution to America, and some of the mothers have given a great deal more to America in the lives of their sons. I hope that you young people who are standing before me never have to make that contribution to the welfare of our country.

I am not going to talk to you about Viet Nam or the Viet Nam war. I am going to talk to you about the law and the respect for the law. This nation among all the great countries of the earth is the only one which is ruled by law. It is not Nixon's law, or Johnson's law or Kennedy's law. It is the people's law. The individuals in the country who are causing these disturbances have no respect for the law. You cannot shoot police officers from the top of buildings. It is not your right and it is against the law. You cannot riot in the streets because it is against the law. You cannot burn buildings because it is against the law. It is against the people's law.

In Abraham Lincoln's address on the law he asked us to love it and to understand it and study it because it is our protection. He also said in this speech that all the foreign armies of the world could not cross the Appalachian Mountains and take a drink of water from the Ohio River unless we lost the will to resist and that means unless you young people are willing to let down and let them walk over you.

There is a serious attempt going on now in Chicago to belittle and malign the Federal Court. That particular court is unimportant. The people that are on trial they are trying to discredit all courts and in so doing again show disrespect for the law.

Next Thursday and Friday a large number of people are going to cry Peace! Peace! but I can assure you that there will be no peace until nations and men live under the law."

Revised Schedule Of Drug Prices Now In Effect

A change in the method of reimbursing pharmacists for drugs provided to medical assistance recipients has been approved by the State Division of the Budget, it has been announced by the State Health Department. The revised schedule of drug prices took effect Saturday (November 1).

The new schedule was necessitated by federal regulations applicable to the Title XIX (Medicaid) program. The traditional system of cost plus a percentage markup for setting retail prices will be replaced with cost plus a dispensing fee of \$1.80.

The fee of \$1.80 is to be added to the wholesale cost of the drug for all prescriptions that require compounding by the pharmacist; for all "legend" drugs (those available only by prescription) and for non-prescription drugs when the physician has written specific directions which differ from those on the original container, or when the prescription requires a quantity of medication other than that in the unit or package size.

For non-legend drugs generally, pharmacists' charges shall not exceed the wholesale cost plus the usual markup, less 20 percent of the markup.

The present minimum charge of \$1.50 for prescription drugs and the existing schedule of compounding service charges, will not apply after October 31. The pricing schedule for sickroom supplies, other than drugs, will remain unchanged at current wholesale cost plus a 40 percent markup.

The schedule of charges applies only to drugs and supplies provided to persons receiving medical care under publicly financed programs and is a maximum schedule under which State aid is made available to local Social Services districts.

News That's Print To Fit

Well Folks, seeing the sunshine this morning — after the first time in what seems like weeks — reminds us that we had better get busy and do some temperature reporting so that the "Snow-Birds" will have something to gloat about.

Thru the Courtesy of the "Boys down at the Pump Station", here are the recorded lows and highs for the past week: Thurs., Nov. 6th — L 29, H 34; 7th — L 33, H 42; 8th — L 34, H 45; 9th — L 31, H 44; 10th — L 41, H 44; 11th — L 31, H 47; 12th — L 31, H 49; and today, the 13th — L 27, and the high before noon is at 40 with the prediction that it will go up into the 50's.

We talked to a prognosticator from the "Senior-Set" and he gave out that today was the starting of the real "Indian Summer" — and boy, do we hope that he is right!

Now let's see, just where were we going from here — oh yes! Wonder how the demonstration is doing down in Washington? Sure will surprise us a heap if it doesn't end up in some sort of violence. Somehow or other those patriots (???) just seem too dang anxious to get close to the White House for some reason or other. Could be that they have some rather macabre plans in mind — suppose?

On the local front, we counted 11 American Flags flying this morning on Main St., starting with Nora's on North Main — on down thru the Main Street section to the News Office.

Yep, we also noticed that Nora's porch light has been lit since Monday, the same as ours has been so we know that we have some support — from the "Silent Majority."

In fact, some one was telling us this morning that they watched an interview on TV Tuesday night Veterans Day, where some American Soldiers, that had been prisoners of the Viet-Cong were being asked what they thought about this "Demonstration for Peace". One of the Ex-Prisoners came right out and said: "that they should ship all of the "Demonstrators" over into the front lines for a while in Vietnam — and that they would sure change their minds — and tunes in a hurry! How about that? We go along about 1,000% with that idea!

Last week we were pretty well filled up so didn't have any room to make a few comments on the County Election. Thus, before it gets too late, we would like to say in passing that we thought it was too bad that Andover ended up without a Legislator — and Direct Representation.

Lord knows, in the past, we have probably had more disagreements with the candidate that was running — than most of the voters that voted for someone else has had, but we put what we figured was "the good of the Community" ahead of any petty, or personal grudges.

In fact, as we recall, if only around 22 more voters in Andover had voted for our local candidate — instead of the lowest winner — we would at least have a Representative in our own Community that we could see just about any day on the Street — or call on the telephone. So-o-o, for the ones that "cut off their nose to spite their face" — all we can say is, that the only comfort is — that you will be having to pay the same proportional raise in Taxes that we will — one way or another!

Say, in reading over this column last week in our remarks about Hallowe'en, (after it was printed), we noticed that we forgot to mention that the Mayor and Village

Board had wished to congratulate the Andover Students on their interest in their "Home-Town" by not committing any acts of Vandalism. So there it is Students and Parents — in black and white.

However, we understand that an Alfred student that thought that he was "pretty wise" and could get away with just about anything in this little "hick-town" like harassing a local resident, running stop signs, driving with his lights off — etc.; ended up by getting "wised-up" in the pocket-book department — to the tune of something like \$100 or so. How about that?
