The following is a copy of a letter sent to Senator Goodell with one copy mailed to us by one of our readers who was so incensed by his recent actions in leading the "Moratorium Parade" in Washington along with Senator McCarthy.

This is a typical example of one of our "so-called" representatives that campaigns and is elected on one platform — and then appears as if "he would rather 'switch than fight' when it comes to these principles".

November 13, 1969

Honorable Charles E. Goodell
U.S. Senate Office Building
Washington, D. C.

Dear Sir:

We wish to express our strong disapproval of your stand on Vietnam and your support of the moratoriums. It is not to be presumed that any arguments we might here present would make you suddenly change your mind — so we save our time and energy.

However, we agree with President Nixon that the "silent majority" also disapproves. Our only hope for the future of our country is that something will rouse this silent group to make themselves heard, before it is too late.

It is our belief that without the influence of "professional" agitators, there would be no demonstrations, no moratoriums, no protests — which in our opinion have prolonged the Vietnam War and given hope to the dictators who seek to impose their will on the South Vietnamese people.

We will NOT be able to support you in any future election, so long as your stand remains unchanged, in spite of the fact that we are enrolled Republicans.

This is our first letter to a Senator or Congressman. I trust it points up the fact that we are DEEPLY disturbed.

Very truly yours,
Mr. and Mrs. G. H. Ryon
