Construction Grant Approved For Alfred

Governor Rockefeller has announced approval of a \$14,000 construction grant application by the Village of Alfred in Allegany County for expansion and improvement of its existing waste water treatment plant to abate pollution of Cascade Creek. Pure Water program grants are provided and the supervision of the State Health Department.

This project will raise the existing treatment level of the Alfred plant from secondary to tertiary providing for removal of 95 per cent of the biochemical demand. The expansion of educational facilities in Alfred has made present sewage treatment facilities inadequate. The new facilities are designed for a population of 10,000 in the year 1994.

The total estimated cost of the project is \$488,500. The anticipated State grant represents 30 per cent of the cost. An equivalent federal grant is also anticipated. An application for the federal grant is being forwarded to the Federal Water Pollution Control Administration.

Design engineer is R. J. Martin of Vestal, New York.
