

News For Fishers

Hardy ice fishermen will have a unique opportunity this winter to catch the famed Chautauqua Lake muskalonge.

Albert Hall, Director of the Division of Fish and Wildlife in the Department of Environmental Conservation, has announced that in Chautauqua Lake, fishing for muskalonge, by angling only (no tip-ups) will be permitted on three week-ends — January 30 and 31 and on February 6 and 7 and February 13 and 14, 1971. All other New York State waters remain closed for taking muskalonge.

This is the first time since 1904 that taking muskalonge through the ice has been permitted. It is another example of the Department's continuing effort to provide expanded opportunities for sportsmen. The special season has been limited in time and waters to allow an assessment of the impact on the lake's fish population and to evaluate the response of fishermen to this kind of fishing.

The 1971 Special Muskalonge License (fee \$50) will be available at license issuing agencies in Cattaraugus, Chautauqua and Erie Counties shortly after January 1. A regular fishing license or combination hunting and fishing license is also required.

The use of tip-ups on Chautauqua Lake will be prohibited on the six days that musky fishing is allowed. Anglers may operate two lines with or without rod.

Successful anglers must affix the seals furnished with the Special Muskalonge License, to the fish immediately upon taking. Any seal not used during the winter fishing may be used during the regular muskalonge season from June 19 through October 31, 1971.

All other provisions of the Conservation Law with respect to the taking of muskalonge in the waters of Cattaraugus and Chautauqua Counties will be in effect. These provisions are listed on page 17 of the 1970-71 Hunting-Trapping-Fishing Guide and are also described in an information sheet furnished with each Special Muskalonge License.

William F. Shepherd, Regional Fisheries Manager, suggests that anglers should limit the size of the holes in the ice to a maximum of 10 inches in diameter. This will be adequate to allow taking muskalonge while giving consideration to other recreational uses of the lake.

Aliens Must Submit Address Forms

Immigration officials are well pleased with the response of aliens to address report requirements.

Aliens have until the end of January to submit their address reports to the Government. Forms for the purpose may be obtained at any Post Office or any office of the Immigration and Naturalization Service.

All aliens, with few exceptions are required to report. Those excused from this requirement include diplomats and persons accredited to certain international organizations.

Aliens who are minors must also report, but the parent or legal guardian should submit the report for an alien child under the fourteen years of age.
