In the summer of 1921 polio was very widespread. The only United States President to be re-elected three times, Franklin Delano Roosevelt, was vacationing in Campobello at the time he was stricken with a severe attack of polio which left him crippled for the rest of his life.

Poliomyelitis is known for its capacity to give rise to the crippling types of paralysis. A summer epidemic is a form that the disease often appears in. A more common name for this disease is infantile paralysis because it was once believed that only children could have it. It has been proven that polio can strike a person at any age.

Poliomyelitis was and is a dread disease and President Roosevelt was afflicted with one of the most severe forms. To help people who might someday suffer the pain that he suffered, he backed the March of Dimes Campaign.

In 1955, Jonas Salk discovered a polio vaccine which has proven successful as a preventive. The Sabin oral vaccine is also used to help check the growth of this disease. No cure has been found for this disease. The only treatment is rest and exercise.

The March of Dimes has changed its emphasis from polio to birth defects. In the United States, over 1/4 million babies are born with birth defects each year.

"When you give to the March of Dimes you help prevent birth defects. You help support more than one hundred birth defect treatment centers. You help support brilliant medical, scientific investigators, including those at the Salk Institute for Biological Studies. You help support a massive health education program aimed at getting the best possible medical care for every mother-to-be."

The contribution of Andover usually amounts to about \$600. Let's make it a happier and healthier New Year by giving to the March of Dimes.

Jeanne Atwell Wins Oratorical Contest

by Susan Church

On Thursday, January 7, three students at Andover Central School participated in the Legion Oratorical Contest judged by Mr. Bronson, Mrs. Burger and Dr. Walker. These three were, in the order of the speeches given:

"The Bill of Rights - The Ten Commandments of the U. S." - given by Shirley Lewis.

"An Example of Constitutional Complexity" - by Alan L. Folsom, Jr.

"Our Country's Constitution - Let It Be?" - by Jeanne Atwell.

After much deliberation, the winner was chosen. Jeanne Atwell was awarded first prize and \$10. She will now compete in the County Contest on Sunday January 17. We wish Jeanne the best of luck.

Shirley Lewis captured the second prize of \$5 and third place went to Alan Folsom. Congratulations to all of you for three fine speeches!

Assembly

by Julie Brown

Tuesday, January 5, the Andover Central School was fortunate enough to have "The Dutch Duo" perform. This program was a genuine Dutch stage production brought to the American schools by two young Dutch folk artists who have been traveling through much of Europe performing for the United States Armed Forces.

In the costumes of their native land, these two artists did folk songs, Dutch comedy, and dances including the traditional "Klompendance" in the cumbersome wooden shoes. The folk songs and costumes were explained to further the audience's understanding of the ways and culture of Holland.

This was a magnificent cultural and educational program.

VOTE AT 18

On March 30, 1870 the fifteenth amendment of the Constitution of the United States of America proclaimed all adult citizens would have the right to vote regardless of "race, color, or previous condition of servitude". On August 26, 1920 under the nineteenth amendment all adult citizens were declared to have the right to vote regardless of sex. Today, though not through an amendment, all citizens 18 years of older were given the right to vote in all Federal elections under the Voting Rights Act of 1970. The United States Supreme Court defeated the hue and cry of the "states rights" by a 5 to 4 vote declaring Congress had "the power" and "the right" to set the national vote age for the election of officials of the Federal government - the President and Vice President, the U. S. Senators and the U. S. House of Representatives. In an attempt to lower the voting age to 18 for state and local elections Senator Edward Kennedy is planning to introduce a constitutional amendment. Supporters of the amendment feel this would not be infringing on the states rights, since for it to become an amendment, 3/4 of the states would have to ratify it.

Up to now only three states have permitted 18 year olds to vote - Alaska, Georgia, and Kentucky. Under the Voting Rights Act of 1970 approximately 11 1/2 million 18 to 21 year olds will be eligible to vote in the 1972 Federal elections. In our own state the 1970 New York State Legislature has approved a bill giving all 18 year olds the right to vote in state and local elections. This could become effective in 1972 if the 1971 State Legislature will approve it and it is ratified by a state referendum. Speculation is that most of the states will lower their state and local voting age if only to avoid confusion and cope with the economics of the situation. If they do not it will most likely leave them with one of two alternatives - two separate voting machines or special ballots.

But will this lowered voting age affect the election results? Will we see more liberal candidates winning? Will there be a "youth block vote"? Most experts say no. In the three states where 18 year olds can vote, only 33% do. It is believed the 1972 election median voting age will be 40 with only 6% of the eligible youth voting. If the youthful campaign worker who has helped in previous campaigns votes as expected there will be no youth block vote. There are as many conservatives as there are liberals in the ranks of youth. An example of this is James Buckley's spectacular conservative win for United States Senator which was manned by many campaigners in the 18 to 21 bracket.

No matter what the age anyone who has the right to vote has the responsibility to vote. There is no excuse now for those who cry "the establishment will not listen to us" because they have given us the most powerful tool, by which to be heard - the right to vote!

If you are eligible to vote register now - it is a very simple, but meaningful procedure. Just go to your county seat or register with your own registration board by simply filling out a card.

I would like to see Senator Edward Kennedy's faith in us upheld when he said:

"We will have a different country tomorrow when 18 year olds begin to vote because they will not be drop outs from the political process."

Purple and White

In their Class C opener Friday January 8, the Panthers secured their third loss in seven starts at the hands of the Come Greyhounds. Cubs pulled out to an early lead and gradually pulled away all through the game.

An early third quarter rally by Andover fell short as the taller Greyhounds controlled the boards. High scorers for Andover were Dale Clark and Jan MacMichael with 11 apiece. In his first game since being injured in early December, Greg Shelman tallied 6 points. High men for Cubs were Rich Amundson with 20 and Steve Raub with 13.

The J.V.'s downed Cubs 56 - 53 with Bob Jackson and Brian Cannon leading in scoring. Bob totaled 20 points and Brian followed close with 17 points.
