Scoutmaster John Murray led the Color Guard of Troop 42 of the Andover Boy Scouts in a Salute to the Flag, at the monthly meeting of the PTA.

The program was conducted by Mr Rodney Peterson, the director of the Vocational - Technical Education at the B.O.C.E.S. Occupational Center at Belmont, N. Y. and by Mr. Hugh Wightman, the Curriculum Coordinator of the Occupational Center at the Director of the Adult Education Division. The entire program is federally funded. They showed the growth of enrollment at the Center since its start and listed the various courses offered. Particularly those participated in by the students of the Andover Central School.

Three Andover students were introduced and each demonstrated the field they were studying.

Miss Dorothy Kapte demonstrated the Cosmetology course, using Miss Kim Waters as a model for hair styling.

Mr. Dave Freeland gave a quick explanation of the various phases of electricity that are studied from the rewiring of simple doorbells to the installations of conduits. Slides were shown to give a pictorial demonstration of the various techniques.

Miss Anita Harvey also presented slides as she gave an explanation of the many and various types of office machines that the students learn to operate in the business courses.

A follow-up of graduates from the Center showed that a large percentage of the students, either returned to High School for more work or went on to further education. Only 4% were unemployed — but were available for employment.

Mr. Wightman then presented a list of courses to be presented to the Adult Classes which begin March 2nd.

Members and friends were invited to attend tours at the Center and to take advantage of the Services offered at the Center.
