Emperor Clock Company of Florence, Alabama has succeeded in producing a revival of interest in the traditional grandfather clock. The renaissance began just two years ago.

"General revival of grandfather clocks," reports George Fowler, President. "Sales have been at a good level at various places. It is not the traditional grandfather clock but a modern design symbol," Fowler added.

"Grandfather clocks are among the most treasured furniture pieces handed down as heirlooms from generation to generation. They grow in value and survive the changes of time," Fowler said. "The Emperor Clock Company enhances the beauty and charm of cherished grandfather clocks by using modern manufacturing methods. Each manufacturer's quality of quality grandfather clocks is thus reduced to a popular price range," Fowler stated.

Went out from solid mahogany and walnut, under the skill of southern furniture craftsmen, and imported from West Germany, give Emperor Grandfather Clocks a wash, rich beauty and lasting dependability as a timekeeping instrument.

Each clock features the well-known Westminster Chimes. Other models offer a choice of the Westminster, Whittington, or St. Michael Chimes.

Emperor Clock Company not only sells assembled, unfinished cases without movements, and completely finished clocks with movements, but also "do-it-yourself" kits for building your own grandfather clock. Emperor Clock Company in addition, offers detailed blueprint plans of each model at a nominal cost.
