Grocery Gems & Goodies

by Phil Fitch

Have you ever been shopping and seen someone pick up something and slip it into their pocket? Have you given it much thought? Did you report it to the Store Manager? Do you realize that this thief actually had his (or her) hand in your pocket indirectly?

Lets look at a few facts and figures. Shop-lifting has increased a whopping 293% in the last 10 years! Some Shop-lifters do this because it is a disease with them (kleptomania). And, they need medical help the same as an Alcoholic. Others do it for greed — or the thrill!

One big reason for this staggering amount of Shop-lifting is due to the break-down in our Judicial System. When a Shop-lifter is caught — he may never even get to a court as he may hire a lawyer and get the charge dismissed on a technical point. Or, he may get his wrist slapped by a kindly Judge, pay a \$3 fine — and be back to his old tricks before the week is over with.

So Shoppers, if you see a person doing something dishonest, would you please report it to the store manager or an employee that you know so that the proper action can be taken.

According to records, 17% of all business losses is due to shop-lifting — and this has to be passed along to all of you paying customers to the tune of Millions of \$\$\$ a year.

Remember that you are actually helping a shop-lifter if you report him — and you are surely saving yourself money in the long-run!

Courage comes on silent feet
To walk with us down sorrow street,
It walks with us 'till on our own,
We're strong enough to walk alone.
