GETTING INVOLVED

by Cindy Tomm How did you get involved today? How and you get involved today?
Did you do anything worthwhile
that will be remembered tomorrow? I'd like to share this poem
with you, which as fellow FHA
State Officer gave me. It is entitled: "At Day's End", written
by John Hall.

Is anybody happier because you passed his way?

Does anyone remember that you

Does anyone remember that you spoke to him today?
The day is almost over, and its too long time is through;
Is there anyone to utiler now a kindly word of you?
Can you say tonight, in parting with the day that is slipping fast;
That you helped a single brother of the many that you passed?
Is a single heart rejoicing over what you did or said;
Does the man whose hopes were fading, now with courage look ahead?
Did you waste the day, or close it?

shead?

Did you waste the day, or close it?
was it well or sorely spent?

Did you leave a trail of kindnass,
or a sear of discontent?

As you close your eyes in slumber,
do you think that God will say,
"You have earned one more tomorrow by the work you did
today?"

Just take five minutes and think about this poem a little. Are you really happy with your life? Or are you living in a world where you don't know what it is to get involved?

nvolved?

Do you know how many members are really active in an organisation? Two? Or, maybe three?

Maybe there are too many other organizations, hobbies or activities in today's society. Perhaps people find smoking, drinking, watching television or watching others do the work more enjoyable.

I know, from my experiences in FHA, and soweral other organiz-tions of which I am a member, that it is quite a task to get others

that it is quite a task to get others to participate.
However, if I had the chance to do it all over again, I would try harder. I hope that in my efforts to build up the FHA in our school and district that I have inspired at least one person to have the courage to take hold and "get involved".

I would like to share this letter, I wrote and read at the State meeting and the Mother & Daughthe Barquet, with those who have not heard it. It means much to me. not because I wrote it, but in hopes that before I leave Andover School I have inspired at least

Dear FHA:

The pain 1 feet in my heart is alite a birding tightness that has no release.

I don't want to leave and put you touched my life with a piece of happiness that I rould never begin to repay.

How do you say good-bye to something I truly cherish and love. I have grown and achieved so much from my experiences through you — and yet, I wish I could go on and do more.

My mein goal this year was to get others, involved. I wonder.

could go on and do more.

My mein goal this year was to get others involved. I wonder have I accomplished my goal? Or have I tried to gouth it to an extent where no one listens?

I want others to reach out and grasp all they can from you. Can't they see what they are missing? or are they straid?

I have only one wish before I leave my office and thet is that the future FHA'ers find the determination to work at waking the next year and years a halffalling year and to encourage all mentions to take the step to participate, and so I've said a hundred times before, "to get towared".

It hurs to my this FEA, but good by and thank you again for the properience.

Remocrifully.
