The First American to sail into the oceans of space was a Navy man.

3...2...1... we have a lift off. And America had its first man in space, Commander Alan B. Shepard, Jr., USN. In 1962, the first three Americans to orbit the earth were also naval aviators: Lt. Colonel J. H. Glenn, USMC; Lt. Commander M. S. Carpenter, USN; and Commander W. M. Schirra, USN. When these men joined the Navy, they saw the world all right. From outer space! And they are but a few of the many Navy men we are proud to salute as the United States celebrates its Bicentennial; Navy men who helped shape our country's growth into a world power. If you'd like to know how you can help carry on this fine tradition, we'd like you to know all about the careers and opportunities that await you in the United States Navy. Just send us the coupon below, see your Navy recruiter, or call toll free 800-841-8000 (in Georgia, 800-342-5855). If you make it into the Navy, you might just make it into the history books too.

Build your future on a proud tradition.

Form for Navy Opportunity Information Center with fields for Name, Address, City, State, Zip, Date of Birth, Phone, and Years of Education.
